Quincy Quarries Taken For Granite

Sunday, September 27th, 2:00 – 3:30 PM

Join a DCR Ranger and Les Tyralla, a registered geologist, for this co-sponsored geology walk with the Friends of the Blue Hills. We will explore the geology and quarry history to understand why the granite of Quincy was so valuable. Additionally, we'll look at the local glacial features and appreciate why we have Boston Harbor and its islands. Sturdy footwear is required and the ability to climb rugged, narrow trails. 1.5 hours.

Space is limited; registration is required
Email raymond.f.mckinnon@state.ma.us for meeting place and directions.
